OVERGROUND Trains arrive directly from Liverpool Street to London Fields Station, a five-minute walk to SPACE.

Images: Photographs of the Malvern Press, Hackney, 1960s-70s, by kind permission Les and Peter Wynn

Please join us to see some of the work so far for *Lightboxes and Lettering*, by Rendezvous Projects CIC. Our project explores the history of the printing industry in east London in the 20th century in the pre-digital era. For *Lightboxes and Lettering* we are collecting images, memories and printed materials and recording the experiences of people who worked in the industry in Hackney, Tower Hamlets, Waltham Forest and some surrounding areas.

Archive images will be on display and a selection of the interviews we have recorded so far available to listen to. We invite you to come and share any images, stories or printed matter that you would like to contribute to the project and to meet the team and our volunteers.

The project will culminate in early 2020 with a final exhibition in Bow and a publication including material and reminiscences from some of the many varied businesses in the area.
